Port Digital Twin

Your Port: Real-time Visualized and Actively Monitored

3D Real-Time Port View

Monitor ships, cranes, and terminal assets with an interactive digital twin updated live

Drill-Down on Ships & Cargo

Click on any vessel to explore open hatches, cargo types, and handling progress in detail

Facility-Level Insights

Visualize and report operational metrics like energy use and productivity per operation, updated in real-time

act·fact

Smart Monitoring. Smarter Reactions

Auto-Zoom Points of Interest

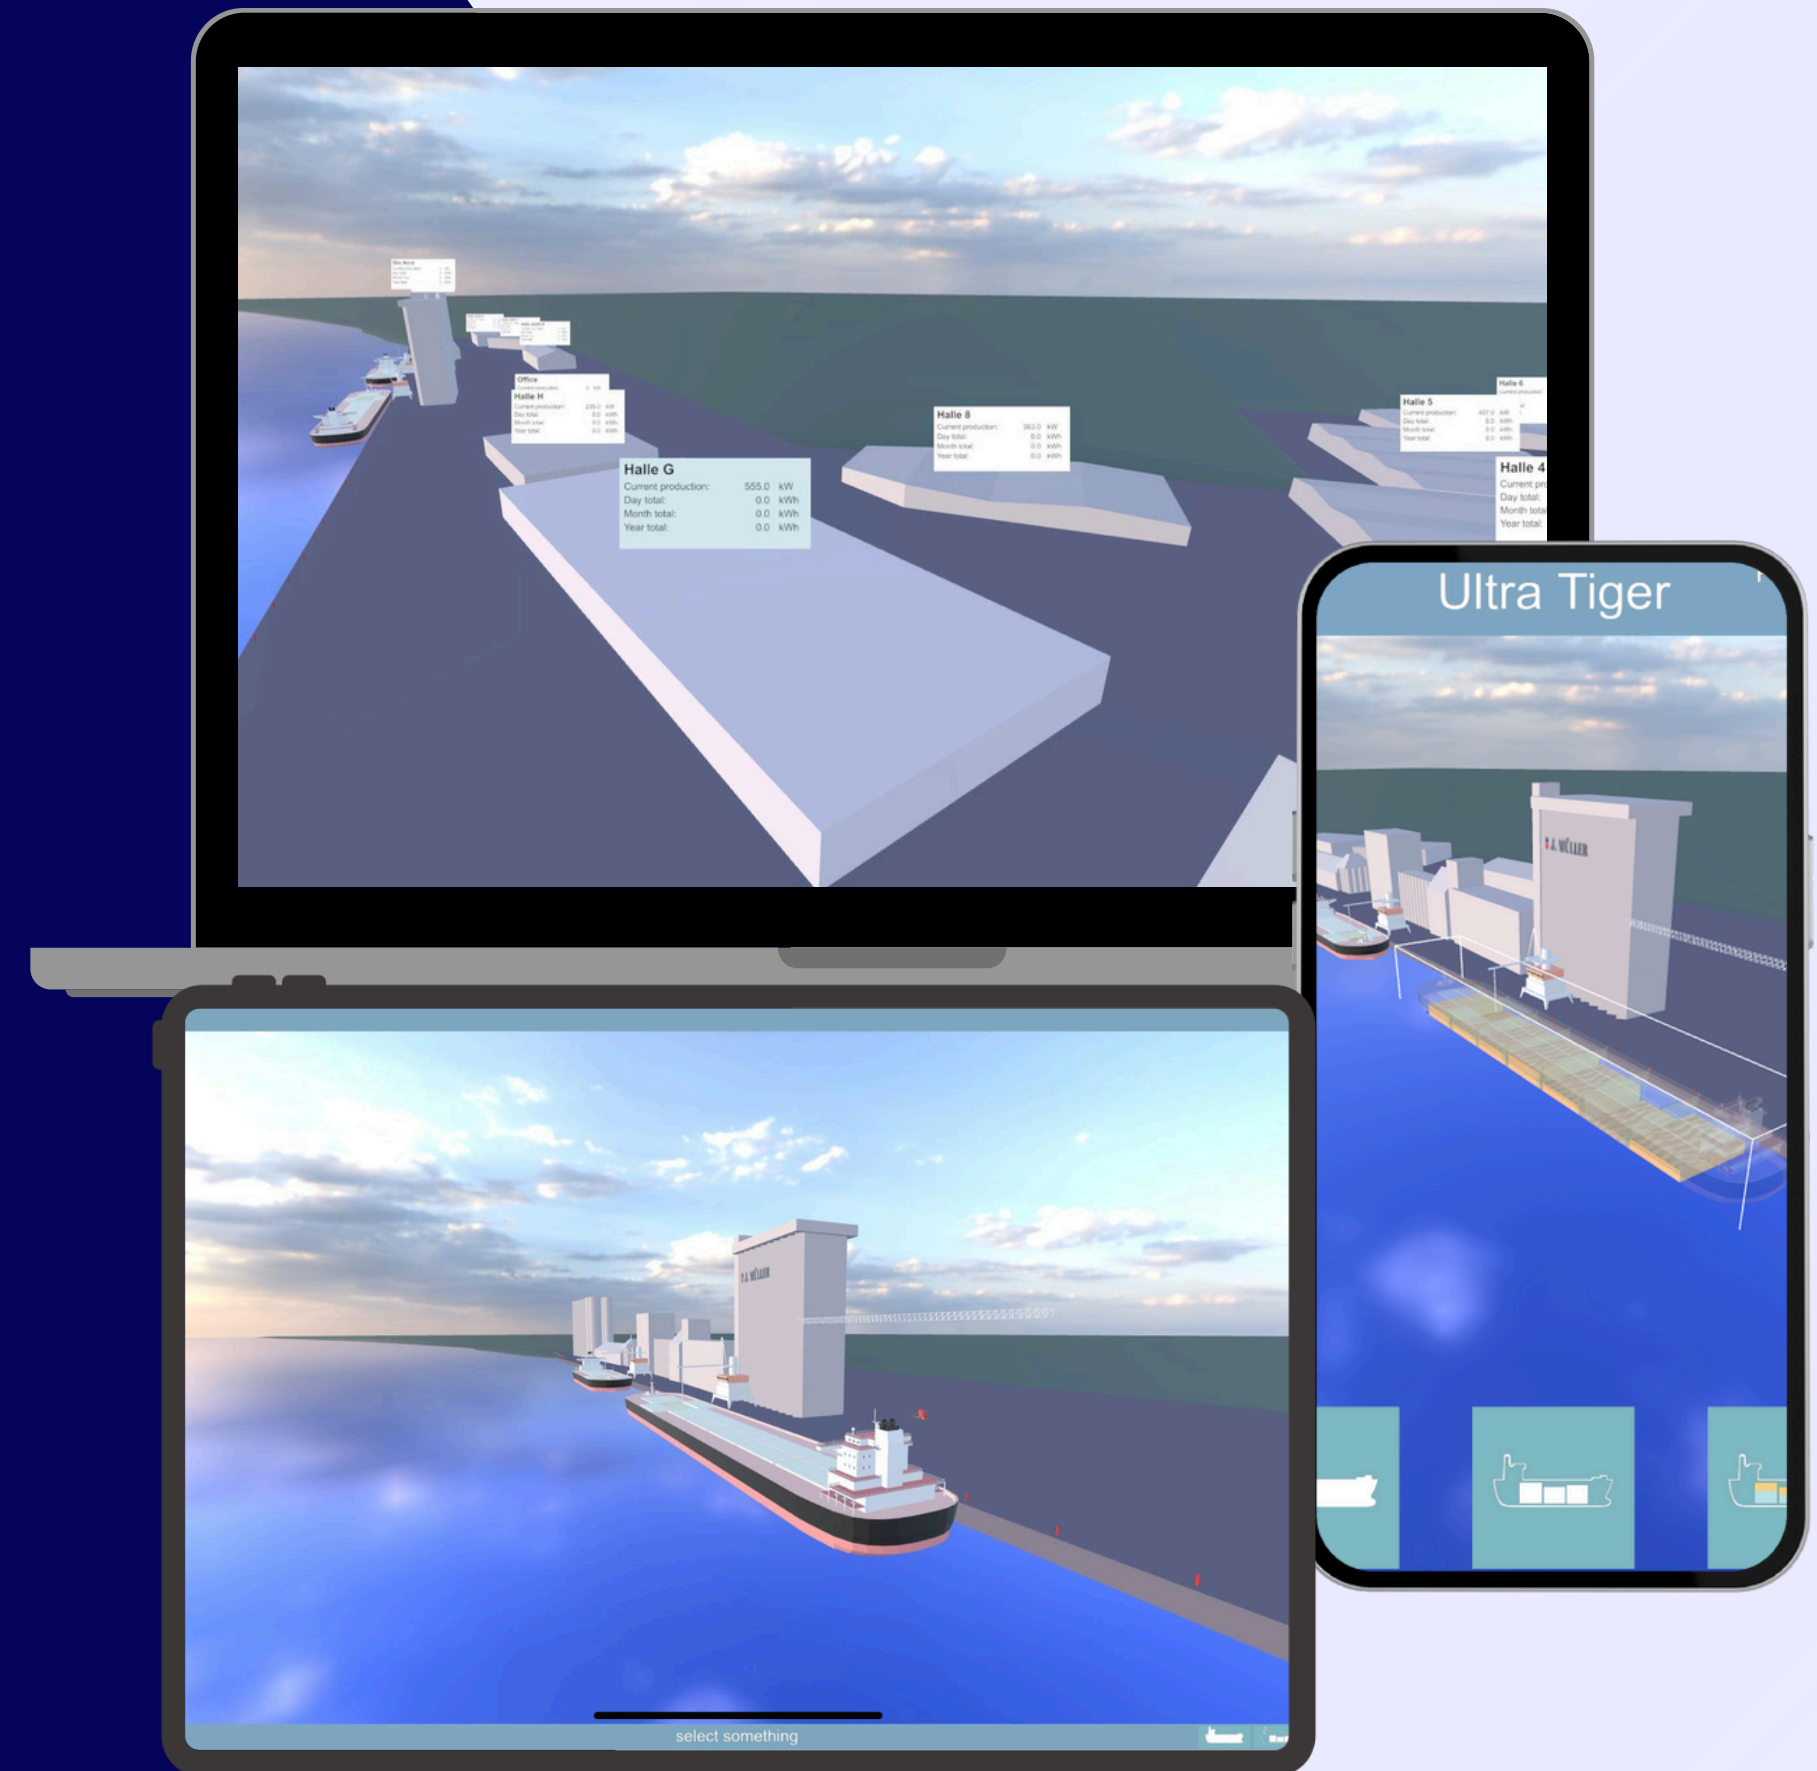

The system detects and highlights critical issues: camera auto-focuses on high-priority events like work breakdowns and receive notifications on your mobile device.

Live Error Detection

Malfunctions or delays on cranes and other assets are color-coded and highlighted visually.

Weighted Event Prioritization

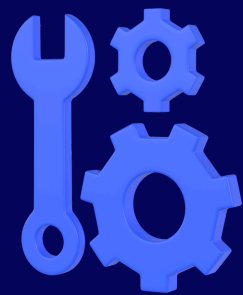

Important events take priority in the UI, ensuring fast operator awareness and reaction.
